Hiep Phu Ward, Thu Duc City

Skills

- **Frontend:** JavaScript, Vue.js, React
- **Backend:** PHP (Laravel), NodeJS, Java Springboot, ASP.NET Core
- **Knowledge:** OOP, MVC, REST API, CRUD
- **Tools:** Git, GitHub, VS Code
- **CSS Framework:** Bootstrap, Tailwind CSS
- **AI:** GitHub Copilot, ChatGPT, Claude
- **Programming Languages:** C#, Java
- **CI/CD: CI/CD & Cloud Deployment:** Vercel, GitHub Actions, Docker
- **Database:** MySQL, SQL Server

Soft Skill

Teamwork: Worked in a team to develop a full-stack application, using Git for version control and collaboration.
Self-learning: Proactively learned and applied new technologies in real projects.

Career Objective

I am a fourth-year Information Technology student with a strong passion for tech and hands-on experience building software projects. I am seeking a Website Developer position to apply my academic background in a practical, real-world environment. I specialize in developing intuitive, highly responsive user interfaces that elevate the overall user experience. Ultimately, my goal is to deepen my expertise across the entire website development and deployment lifecycle.

Education

2022 - 2026
HUTECH University | Information Technology
- Major: Software Engineering

Projects

OKABE (Task Manager Website)

Technologies: Java Spring Boot, MySQl, React TypeScript, WebSocket, Docker, CI/CD(GithHub Actions)
- OKABE provides a free Kanban-based task management platform that enables small teams and startups to organize their workflows efficiently without relying on paid tools.
- OKABE enhances collaboration by offering real-time updates, an automated notification system, and a comprehensive activity history—helping reduce information loss while improving overall team productivity.

Github: https://github.com/tvquan2004-svg/OKABE

Personal Portfolio Website

Technologies: React, TypeScript, Tailwind CSS, Framer Motion
- Developed a digital portfolio to clearly present my background, technical skills, and project portfolio to potential employers, effectively showcasing my UI/UX design preferences.
- Built a highly responsive, easily navigable interface featuring smooth animations to ensure a seamless experience across all devices.
